Foreward

In 1955, we published the first Diocesan book of classes and priests' pictures, in observance of our Fifteenth Anniversary. This publication was prompted by the desire to commemorate the anniversary, and by our observations of the pictures of the Ordinati classes appearing in the newspapers. We had thought for many years that these pictures would make a valued booklet, if they could be gathered into one place.

In 1960, we published the second anniversary book of pictures, as we observed our 20th Anniversary. We republished in 1965 and 1968; the latter in observance of the 100th Anniversary of the Diocese of Scranton.

Judging from the comments and very kind compliments which we have received on the previous anniversary books, apparently our thinking was correct. The books were appreciated, and did serve a useful purpose.

We, therefore, decided to issue the book once again in observance of our Thirty Fifth Anniversary, which occurred in June 1975. For this 35th edition, we depart from the use of a combination of class photos and individual pictures, and embark on what turned out to be a herculean task, the printing of individual pictures of every priest. It took nearly eight months to round up all the pictures. We succeeded in obtaining every picture.

It is, therefore, our privilege, in observance of our Thirty Fifth Anniversary, to forward this booklet to you, with our compliments, in appreciation of your help in making the past thirty five successful years possible.

We have included every class which still has at least one living member.

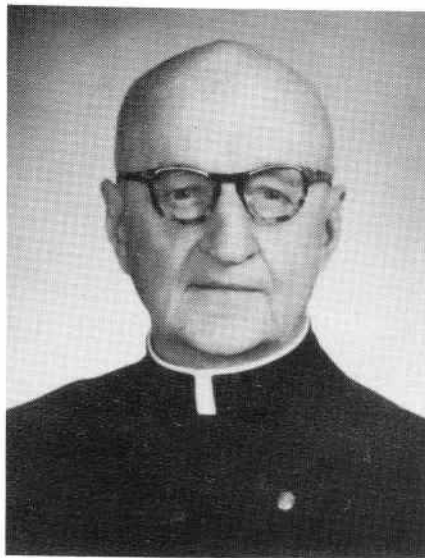

We are grateful to the following for their kind assistance and suggestions: His Excellency, The Most Reverend J. Carroll McCormick, D.D., Bishop of Scranton; Msgr. James C. Timlin, Chancellor; Rev. Francis J. Callahan, Assistant to Chancellor; Msgr. Joseph P. Gilgallon, M.A., Editor, The Catholic Light; Art Perry of the Catholic Light staff; Mr. James Kisel, our printer; the priests who supplied pictures and Mrs. Margaret Carey, office secretary, who handled the vast amount of detail necessary to assemble and publish so many pictures.
