Introduction

Holy Cross Cemetery is located within the city limits of Alpena, Michigan on the west side of the city on Washington Ave (M-32). This publication contains information taken from the sexton records, old ledgers, correspondence, burial permits, stone readings, and invoices often containing obituaries. It covers the period from 1870 through 1998 with some earlier records from the initial cemetery. It also contains burials previously not found in the sexton records that were confirmed by the Church records. These omissions were from the period 1870 to 1922 when the Cemetery records had not been started.

History

"The first Catholic Cemetery in Alpena consisted of two acres, was situated on 11th Street, where the City Pound now stands, and was purchased from George N. Fletcher in June, 1867 for the sum of two hundred dollars. The New Catholic Cemetery consists of twelve acres, was purchased for six hundred dollars in Nov., 1886, and was solemnly blessed by the Rt. Rev. H. J. Richter, Bishop of Grand Rapids, on August 1st, 1887. signed T. D. Flannery Jany 1st, 1888" This brief statement begins the history of the Catholic Cemetery of Alpena, Michigan, now known as Holy Cross Cemetery. As noted above the first Catholic cemetery (from about 1859 to 1887) was in a different location and bodies were moved to the present location in 1887. Records were kept of lot purchasers from 1887; however, it wasn't until 1922 that records were kept by the sexton of burials. Information about older burials were reconstructed by the sexton from a variety of sources. In the spring of 1921 major changes were made to the cemetery in the form of the paved center road, construction of the cross/altar at the rear of the cemetery, grading and filling of the land and the appointment of the first sexton, Fred Ellery on April 10, 1922. On Aug 5, 1921 the name was changed from Catholic Cemetery to Holy Cross Cemetery. It was also in 1921 that the caretaker house and tool shed were removed from the east entrance leaving a vacant area just inside the front gate on the left (block 10). On May 29, 1921 services were held at the cemetery, a practice that continues to this day. In the summer of 1993 a new section was added to the cemetery which is not included in this project or the map.

Book Format

This document contains about 15,000 records of lot purchasers and burials at Holy Cross Cemetery. When the lot purchaser was not listed as being buried in the lot, that information was noted. Persons listed in this publication may not always be deceased as many persons have a stone with their name and birth. Each record begins with a grave **location** of block, and lot. The location of **SA**,(St Anne Church) **SB** (St Bernard Church) or **SM** (St. Mary Church) referred to the church record where this burial was confirmed as being in Holy Cross Cemetery. Most of the blocks are set up with lots having from one to eight graves. However, there are a few exceptions. Lot 36A is a section of single graves only in rows. Lot 41A is known as the Baby Section and has individual graves. Lot 42A is called the Shrine section and contains rows of single graves. We found no documentation as to the exact location of Potters Field from either the records or the knowledge of the sexton; however persons listed as being buried in Potters Field (PF) who have headstones, those stones are located in the southeast corner of block 35. **Last name** and **First Name** were listed as on the record / stone. When variations of the name were encountered, efforts were made to include those variations. When discrepancies occurred the name was recorded as it occurred two out of three times. **Comments** usually include relationships noted in the records. Sometimes an address was noted. Relationships were given preference over addresses. **Burial date** may have been the date when brought to the cemetery or the actual internment date. At times it was not the same. We recognize that there are some inconsistent burial dates with death dates. We decided to leave the dates as we found them rather than create further error. **Birth** and **Death Dates** as well as age were obtained from stone readings and/or from the obituaries found in the sexton records. A few stones contained birthplaces; the majority of the information came from the sexton records and obituaries. Age was generally noted by years, months and days separated by periods. Thus 36.3.12 is 36 years, 3 months and 11 days of age. FH is a listing of the funeral home as noted in the sexton records.

Project Process

Information was extracted from the first edition of Holy Cross Cemetery Sexton Records and was supplemented by burials from that time to the present (1992 - 1998) In addition information about deaths were extracted from the three churches who buried in this cemetery in order to make more complete those burials prior to 1922 when the sexton records were believed to be more accurate. 45 pages of burials were added to this work by inclusion of those burials. In the original project information was extracted from three old ledgers of lot purchasers and burials as well as recording information from all of the block and lot cards, comparing that information with the invoices, correspondence and burial permits. Stones were read and checked three times against the information

obtained in the office. At times we found a stone for persons not listed in the office. On the other hand we also note that about 60% of burials had no specific stone and thus may be considered "unmarked" graves. As with any project of this size and scope, we cannot hope to complete this project without error. Since burials from 1870 - 1922 were reconstructed from several sources, researchers are asked to keep these facts in mind when considering the accuracy of the data. We do hope that this effort will assist anyone searching for information to find at least a lead to their quest.

Disclaimer

Neither the Holy Cross Cemetery Board, who gave permission for this publication, nor its staff are responsible for the accuracy of the information in this publication.

Thanks

We are grateful to the Holy Cross Cemetery Board and especially to Sally Lappan, office manager for their cooperation, assistance and wealth of information in helping us to complete this ambitious project. Their donation toward the publication of this document is accepted with gratitude.
